

Activity 1: Import an Excel spreadsheet to Google Sheets

In this activity, you practice opening an Excel spreadsheet and saving it as a Google Sheet.

Complete the following steps:

1. Click this link [On the Rise forecast report.xlsx](#) to open the Excel spreadsheet from the course drive.
2. Select **Open with Google Sheets**.
3. Select **File** and choose **Save as Google Sheets**.
4. Rename the Google Sheet "On the Rise forecast report_YOURNAME."
5. Star the spreadsheet to add it to the Starred label.
6. Close the Google Sheet, the Excel Sheet, and the preview tabs
7. Go to your My Drive at drive.google.com. Confirm that the spreadsheet is listed in your Starred label.
