

Activity 10: Use comments and action items

In this activity, you add comments, assign an action item, and resolve a thread in Google Slides.

Complete the following steps:

1. Try adding several comments to your presentation.
 - a. Select a line of text, open the **Insert** menu, and select **Comment**. Enter some text and click **Comment**.
 - b. Select an image or another line of text. Right-click and choose **Comment**. Enter some text and click **Comment**.
2. Assign an action item to a colleague.
 - a. Add a comment and @mention a colleague and assign him/her the comment. Remember to tell your colleague to ignore the comment as this is only a training exercise.
 - b. Check the **Assign to <name>** box and select **Assign**. You may be asked to grant your colleague permissions to your presentation.
3. Resolve a conversation.
 - a. Select the **check mark** on a comment card to **Mark as resolved and hide discussion**.
 - b. Select the **check mark** on the action item to **Mark as done and hide discussion**.

Do not close your presentation. You will use it in the next activity.
