

Activity 3: Change formatting and add speaker notes

In this activity, you continue working with your Google Slides presentation. You experiment with formatting and add speaker notes. You also rename your presentation.

Complete the following steps:

1. Change the formatting of various elements.
 - a. Change the size of an image.
 - b. Change the font of a block of text.
 - c. Change the text size and color.
 - d. Bold some of the text.
2. Reposition an image on the slide.
 - a. Select an image.
 - b. Drag it to the center of the slide and look for the red guideline to indicate when the image is centered horizontally.
 - c. Select **Arrange, Center on page**, and **Vertically** to vertically center the image.
3. Add some speaker notes. Note how you can apply rich text formatting to your speaker notes.
4. Rename the file by adding your name: "On the Rise Bakery best practices sharing_YOURNAME."
5. **Star** the presentation to add it to the Starred label.
6. Check the Starred view in your My Drive. Can you see your renamed presentation?

Do not close your presentation. You will use it in the next activity.
