

Activity 4: Insert a linked chart

Now it's your turn. In this activity, you test the dynamic integration between Google Sheets and Google Slides.

Complete the following steps:

1. Create a copy of [On the Rise monthly bestsellers](#) Google Sheet on your Drive (selecting the link automatically asks you to make a copy).
2. Return the tab containing your presentation "On the Rise Bakery best practices sharing_YOURNAME" and add a new blank slide.
3. Select **Insert**, **Chart**, and **From Sheets**.
4. Select the "Copy of On the Rise monthly bestsellers" Google Sheet, then click **Select**.
5. Select the chart, ensure the "Link to spreadsheet" box is checked, then click **Import**.
6. Change some values in the table in the Google Sheet.
7. Refresh the chart in Google Slides. Click the **Update** button on the chart to refresh the chart.
8. Close the "Copy of On the Rise monthly bestsellers" Google Sheet tab.

Do not close your presentation. You will use it in the next activity.
