

Activity 5: Create a new email signature

In this activity, you set up and send an email with a personal signature line.

Complete the following steps:

1. In Gmail select **Settings** (the gear icon), then select **See all settings**.
2. Beneath the "General" tab, scroll to "Signature" and select **Create new**.
3. Name your signature, then click **Create**.
4. Add your signature text and format it.
5. Scroll and select **Save Changes**.
6. Compose a new email. Select **Insert signature** and add your new signature to the message.
