

Activity 6: Create a canned response template

Now it's your turn to create a canned response and use it for an email.

Complete the following steps:

1. Select **Settings**, then select **See all settings**.
2. On the "Advanced" tab, and ensure that "Templates" are enabled. Save your changes if you need to enable templates.
3. Compose a new message, and enter a subject.
4. Enter some text into the message.
5. Select **More options** point to **Templates**, choose **Save draft as template**, then select **Save as new template**.
6. The message subject appears as the default template name.
7. Click **Save** to save your new template.
8. Select **Discard draft**.
9. Use the template for a new message. Compose a new message, select **More options**, point to **Templates** and select the name of your new template to insert it into the message.
