

Activity 8: Share a Google Form

In this activity, you share the Google Form from the previous activity using email and generate a shareable link. For this form, you want to be able to identify respondents' email addresses with their responses.

Note: For the purpose of this activity, you'll be prompted to use a second email address to simulate a responder.

Complete the following steps:

1. Send a Google Form by email.
 - a. Return to the form tab from the previous activity and select **Settings**.
 - b. Under **Responses**, select **Verified** from the **Collect email addresses** dropdown.
 - c. Select the **Publish** icon.
 - d. Enter your second email address under **Responders** and select **Share**.
 - e. Add an optional message and select **Publish and notify**.
 - f. Open your second email account. Can you see the form in your inbox?
2. Generate a link to the Google Form.
 - a. Select the **Copy responder link** icon.
 - b. Check the box to **Shorten URL** and select **Copy**.
 - c. Paste the URL into a new browser tab. Can you see your form?
3. Close both tabs that contain your form.
