

## Activity 1: Create and format a Google Doc

In this activity, you create a new Google Doc and use the formatting menu/toolbar to apply some various styles.

Complete the following steps:

1. Go to [docs.new](https://docs.google.com/new) to create a new Google Doc.
2. Click the link [Bakery consumer behavior](#) to open the text file.
3. Copy the file content into your new Google Doc, then close the “Bakery consumer behavior” tab. The file contents can also be found in this document's appendix.
4. Use the formatting menu/toolbar to change the following:
  - Text size
  - Alignment
  - Text style
  - Font
  - Text color
  - Line spacing
  - Indentation
  - Columns
  - Bullets/numbered lists
  - Clear formatting

Do not close the Google Doc. You use it in the next activity.
