

Activity 2: Name a Google Doc, star it, and save as a PDF

Next, you name the Google Doc, add it to the Starred label to find it easily, and save a PDF copy.

Complete the following steps:

1. Use your Google Doc from the previous activity.
2. Select 'Untitled document' and rename the Google Doc "Bakery consumer notes."
3. Star the file to add to the Starred label.
4. Save as a PDF.
 - a. Select **File** then **Print**.
 - b. Select **Save as PDF** as the destination.
 - c. Select **Save**, then choose where to save the PDF and press **Save**.
5. Optionally, go to drive.google.com to open your Google Drive. Select **Starred**. Your new Google Doc should be listed here.

Do not close your Google Doc. You use it in the next activity.

Note: You can also create a PDF from the **File > Download** menu option.
